

IDEA

This is the first stage of undertaking any landscape project. It all begins with your ideas of what you would like to achieve. It is worth while taking some time to consider:

1. What specific goals do you have for your space e.g. creating an entertainment area, more space for the children, greater privacy, etc?
2. What styles do you like e.g. Mediterranean, cottage garden, contemporary, etc?
3. What budget do you have in mind? This question is often hard to answer – if you've never renovated a landscape before, you may not know where to start. New landscape installations range dramatically in price, so understanding your budget will help us provide better design advice. At a minimum, determine some budget parameters, such as less than \$5,000, \$5000-\$10,000, \$10,000-\$20,000, \$20,000 to \$50,000, and so on.

INITIAL CONSULTATION \$230 + GST

We will meet with you at your property to discuss your needs and requirements. This consultation is an idea generating and information gathering meeting. We are here to listen and offer expert advice, to turn your ideas into practical spaces that are aligned with your vision and lifestyle.

During an initial consultation, we'll tour your existing landscape and discuss your requirements and objectives. In addition, we will review the landscape design process with you in more detail and answer any questions you might have.

Project scope, budget and design goals all affect the process therefore this initial meeting will help determine what level of design and planning is appropriate for your project. A concept plan may be recommended.

Our initial consultation generally lasts one hour.

CONCEPT PLAN From \$1,800 + GST

Every property benefits from good planning, custom design and an eye for detail. The concept plan is an opportunity for us to start to bring the thinking of both parties to life. We will create a to scale plan, specific to your needs, showing the layout of your new landscaping and how it will relate to your property. This includes detailing and designing decks, entrances, driveways, courtyards, spa pool areas, or whatever you need.

We will walk you through the concept plan on site enabling you to visualise your potential new landscape and discuss any tweaks. From here, once the plan is finalised, we will provide you with a quote to create your vision and indicative timings to create your customised landscape design.

CREATE

We will keep in touch leading up to the day we commence the work.

With over 24 years of landscaping experience we will take care of everything to transform your property. You won't need to be at the property for work to be undertaken.
